Provenance

Items donated to the Eisenhower Institute by Michaela Pyle's daughter in 2015. The Eisenhower Institute gave the collection to Special Collections in 2018.

Biographical Note

Michaela Pyle (1916-2000) was a reporter for the *Gettysburg Times* who was approached by former First Lady Mamie Eisenhower to write her biography. The book was never finished.

Historical Note

President Dwight David Eisenhower and First Lady Mamie Eisenhower lived in Gettysburg after President Eisenhower's tenure in the White House. After his death in 1969, Mamie Eisenhower lived in their farmhouse alone until her death in 1979. Before her death, Mamie Eisenhower approached local *Gettysburg Times* reporter Michaela Pyle to write her biography, which was never finished.

Scope and Content Notes

The collection includes stories and interviews collected by Michaela Pyle as part of her unfinished biography of First Lady Mamie Eisenhower, as well as news stories, correspondence, and artifacts related to her interactions with the Eisenhower family in Gettysburg and her work for the biography. Pyle's interviews with and recollections of Mamie Eisenhower are unique and detail the former First Lady's time living in Gettysburg, especially after the death of her husband and former President Dwight D. Eisenhower. Much of the collection focuses on the last years of Mamie Eisenhower's life and the reactions to her death in 1979, but Series 3 includes items relating to a birthday celebration for President Eisenhower in Gettysburg in 1956.
